Stake Relief Society Enjoy Afternoon Activity

The ladies of the Taylor Stake Relief Society spent a worthwhile and enjoyable afternoon Saturday, May 5 in the Stake House at Raymond. Pageants depicting excerpts of the work studied by the Relief Society ladies was capably presented by members of the Taylor Stake from Magrath as follows: Prelude, Afton Keeler; Opening song, "Sweet Is The Work"; Invocation; Greetings, President Margaret Ririe; Singing Mothers," For the Strength of the Hills" and Holiness Becomes the House of the Lord."

Theology — Mrs. Margaret Blumell with recorded voice of John Wolsey.

A new Witness for Christ, Choral Reading— Beatitudes. Chorus" I walked Today Where Jesus Walked" by Raymond Music Club Director, Elinor Hudson.

Visiting Teacher. Myrtle Passey "A Message In Action" with Introduction by Myrtle Passey, Story by Ruth Austin.

Social Science - Loreen Brewerton.

"To Canada" 1st Reader — Barbara Davies. 2nd Reader — Barbara Anderson.

Literature — Betty Tanner.

" Literature Review."

Introduction — Betty Tanner.

Readers, Loreen Brewerton, Lucille Blaxall, Joan Bullock, Bernice Anderson, Ruth Rice, Mary Margaret Blumell, Dorothy Hamilton and Nedra Redd

Vocal Solo — Gean Wheeler, assistants — Phoebe Norton and Mildred Harker.

Remarks, Pres. T. George Wood and President J. Golden Snow.

Closing song, "Improve the Shining Moments." Benediction — Ruth Taylor.

"Work"

Food Preparation and Service, Ila Paulsen.

Chefs — Elaine Harker, Ruth Norton, Betty Ann Turner, Julie Hindley, Marion Robinson.

Smorgasboard.

Each person in attendance found some portion of the program that would forever be an inspiration. It could be that the words of III Nephi brought to many the full lesson of the Gospel as Mary Margaret Blumell and John Wolsey portrayed, those beautiful passages of Scripture found in III Nephi Ch. 11 an verses 10-14 and ch. 15 verse 1.

Again many heads may have been bowed in thankfulness and humility as the Singing Mothers sang with conviction the two hymns, "For the Strength of the Hills" and "Holiness Becomes the House of the Lord."

(continued on page four)

The 2nd Ward Sunday Nite Study Group met at the farm of Ronda Dahl with Mr. and Mrs. Lawrence Turner acting as host and hostess. A good number of members were in attendence to enjoy a most interesting lesson given by Bob Brandley which was followed by a lively discussion.

A delightful lunch was served by the hostess.

The Raymond Music Club met for their regular monthly meeting at the home of Zina Anderson, on Monday May 7th with Pres. Doris Court conducting plans for a forth coming Piano Recital, on May 18th.

The President thanked the members for their enthusiasm and fine cooperation in the efforts they put forth to sing in the recent Alberta Music Festival wherein they were so successful. In appreciation of their work, books were presented to Eleanor Hudson, the conductor and Emma Dahl the pianist.

The Club is begining practise on songs for the coming Four Stake Music Festival.

A pleasant lunch with a few extras was added and served by Mrs. Anderson and Helen Sabey.

Mr. and Mrs. Joe Keeler were recent visitors to Edmonton.

Mr. and Mrs. Harold Garner were in Rosemary for a recent week end when they visited at the home of her brother, Mr. and Mrs. Forest Gedlaman.

Mr. and Mrs. Charles Fawns, who manage the Salmons Pelgan Ranch east of Foremost, are enjoying a holiday in Raymond visiting with relations and friends.

Members of the Friendship Club motored to the farm home of Hazel Ralph on Wednesday evening May 9th where they spent a most enjoyable evening visiting while doing handwork.

The hostess served a most delicous lunch.

Little Joan Jensen, daughter of Mr. and Mrs. Evan Jensen, celebrated her 4th birthday in fine fashion when 20 friends were invited to a party. All the children participated in playing a variety of games until lunch time when a beautiful cake appeared as well as other pleasant party treats.

Allan Nalder of Great Falls came to Raymond last week-end to take his wife and family home. Mrs. Nalder who has been here since Easter just obtained papers which makes her and the family U. S. citizens.

Mr. and Mrs. Ike Orgill, in company with Marie Matkin, had the misfortune to have a car accident outside of Helena, Montana, while en route to Salt Lake City. The car overturned on a wet road causing minor cuts and bruises to the occupants. Damages to the car necessitated the travellers to complete their trip to the South by bus. It is hoped the repairs will be completed so they can return home in the car.

The Book Lovers Score met Wed. afternoon May 9th, at the home of Rojeana Bingham. A good attendance of members were present as well as several guests, including the guest speaker Mr. Lyman Jacobs, Jean Rolfson, Elaine Meeks, Mary Rasmussen, Fannye Walker, Ruth Gibb, Ethel Jacobs, Martha Woolley and Elizabeth Kerr.

The afternoon began with a delightful luncheon served by the hostess. After the Club business was terminated Mr. Jacobs gave a most informative talk on world conditions, namely "The Breakdown of Empires since World War II and The Trouble between Israel and the Arab League. By the use of maps in conjuction with his talk, the speaker made it very interesting and worth while afternoon which was greatly appreciated by those present.

The Primaries of the four Raymond Wards held their annual Sunday Night Programs on May 6th with a good attendance present. The program in each ward was followed according to the suggested outline from the Primary Headquarters in Salt Lake.

"Be Ye Kind" was very beautifully portrayed by the chidren of the diffrent classes who made the evening one of success.

Mr. and Mrs. Willard Paxman had a few friends in for a pleasant, sociable evening recently. The hostess served a delicious lunch.

Mrs. Winston Shaw and children spent last week in Rosemary visiting at the home of her sister, Mr. and Mrs. Jack Nilsson.

Carol Holt, daughter of Bishop and Mrs. Murray Holt, and several of her school friends enjoyed a very nice party on her 9th birthday. The girls had fun playing a variety of games. At the conclusion of the party, Mrs. Holt served a most delicious lunch.

Mr. and Mrs. Jack Hallmark and family of Klamath Falls, Oregon, are spending a few days holiday visiting at the home of her brother-in-law and sister, Bishop and Mrs. Murray Holt.

A most pleasant evening was spent at the home of Mr. and Mrs. Jim McMahon on Sunday, May 6th, when the Adult Aaronic Priesthood Group met for a Fireside.

After the business was concluded, when Mr. Wallace Wilde was sustained as Class Leader in place of the former leader, Bill Bowden who has left to make his home in Picture Butte Howard Hicken gave a most intersting lesson.

The hostess, Mrs. McMahon very graciously served a delicious dinner.

SPRING-TIME SYMPHONY

Oh, I woke up feeling gay on this smiling morn in May,
And resolved to see the world that God had planned;
To the near-by woods I strayed - but my footsteps were delayed —
My eager ears had caught the sound of nature's tuneful band.

Oh, the pussywillows wept for they'd slightly overslept,
And the birds were calling faintly from the glen;
While the grass came peeping through, softly kissed by sun and dew —
I heard a saucy little robin calling cheerily, and then

To the treetops came a throng of small blackbirds, and their song
Seemed to fill the world withclamor, and with joy
I held my breath and listened, till the tears on eyelids glistened,
To think the Great Conductor should such tiny throats employ.

Tho' I joyed that all the earth should rejoice in glad re-birth,
I felt one sound was missing from this symphony of joy;
That sound at last I heard — and my heart was strangely stirred —
For lo! 'twas the careless tuneless whistle of a boy.

'Tis the sweetest sound on earth that can give the heart re-birth,
And rest from all thismad world's daily moil;
'Tis the patter of his feet, and his voice in laughter sweet,
That charms the heart and wins it to acceptance of its toil.

— Sally Hippard

Gas Co. Changes

D. K. YORATH

R. C. McPHERSON

Mr. D. K. Yorath, General Manager of Northwestern Utilities, Ltd., Edmonton has been appointed President of that Company and its affiliate, Canadian Western Natural Gas Company Ltd., Calgary, it was announced today by Mr. H. R. Milner, Chairman of the Companies.

Mr. R. C. McPherson, General Mgr. of the Canadian Western Natural Gas Company Ltd. in Calgary since 1949, has been appointed Senior Vice-Pres. of the two Gas Companies. Mr. McPherson will remain as General Mgr. of the Calgary Company.

The announcements follow a meeting of the Board ofDirectors of Northwestern Utilities, Ltd. and the Annual Meeting of the Shareholders of Canadian Western Natural Gas Company Ltd. held in Calgary today.

Mr. Yorath will remain as General Mgr. of Northwestern Utilities in Edmonton, and becomes a new member of the Board of Directors of the Calgary Company. Mr. Yorath worked for the Calgary Utility Company for 24 years before moving to Edmonton in 1949.

Other appointments announced include that of Mr. F. A. Smith of Edmonton to the position of Vice Pres. of Finance for both companies. Mr. Smith joined the Companies in 1930 as Assistant Internal Auditor in Calgary and in 1944 became Comptroller. Mr. Smith F. C. A., is a past President of the Alberta Institute of Chartered

(continued on page two)

Mrs. Edna Gilchrist was hostess to the Senior M Men and Gleaners on Sunday evening May 6th. Special guests at the Fireside were Mr. Gary Ursenbach of Lethbridge, and Mr. and Mrs. Vede Gilchrist. Mr. Gilchrist, as guest speaker, told of his missionary experiences in France and showed films of that country as well as other European countries.

An attractive lunch was served by the hostess.

W. A. Aims Discussed At Regular Meeting

The W. A. of the Raymond United Church held its regular monthly meeting at the home of Doreen Douglas on Thursday evening, May 3rd. After a short business meeting the aims of the W. A. were fully discussed. It was brought to the members attention that the Raymond W. A. is very small unit of the largest womens organization in Canada. This organization numbers over 500,000 and is perhaps the most influential body of women in Canada. In thousands of communities large and small it exerts great influence, helping to determine the moral and social standards which in turn shape the characters of the new generation of girls and boys.

In 1955 this body of women raised over $6,000,000. The money was used in furthering the work of the church. at home and abroad in such places as Kitimate B. C. and in Angola, Rodesia, Korea, Japan, Trinidad and many other dark corners of the world.

The ladies were engendered to go foreward with confidence and enthusiasm to do His work; and were reminded that: 1 woman can do something. 10 women can do a great deal. 100 women are great strength. 1,000 women are a great power and 1,000,000 women are invincable.

At the close of the meeting the special guests Mrs. Pat Kurmey and Mrs. E. Cope of Welling were welcomed. The hostess Mrs. Douglas then served a delightful lunch.

Mrs. E. H. Price of Taber is presently visiting at the home of her son-in-law and daughter, Mr. and Mrs. Arlidge Hill.

Mr. and Mrs. Fritz Dahl entertained the Sunday Nite Club recently when Dr. Harris Walker gave a very interesting talk on the Hindu Religion.

Special guests were Mr. and Mrs. Bill Fairbanks. The hostess served dainty refreshments.

T. Geo. Wood Heads Alta. Woollen Products

— Magrath Woollen Mill

At a recent meeting of the Board of Directors of Alberta Woollen Products Ltd. in Magrath, a new group assumed control of the company. T. Geo. Wood was chosen as President and Managing Director, with Earl Tanner of Magrath as VicePresident. H. Hartland Stevens is Secretary-Treasurer, and included on the Board of Directors is Harold G. Long of Leth bridge.

Mary Thompson and Marie Johnny, Jean LaBelle and Mrs. Les Robinson of Granum were recent visitors to Great Falls.

Dick Chipman has come to Raymond to take up his new duties as Manager to the Hardware Dept. of the Mercantile.

Mr. Chipman, the son of Mr. and Mrs. Roy Chipman of Welling, is married to the daughter of Mr. and Mrs. Lorin Nelson of Welling and they have one child. The Chipman's have lived the past three years in Claresholm where he was employed in the Claresholm Garage.

Mr. Don Briggs of Salt Lake City was a brief visitor at the home of Mr. and Mrs. Larry Duncombe.

Edna Gilchrist And Wilford Meldrum Wed

A marriage uniting two well known Southern Alberta families, Mrs. Edna Gilchrist and Mr. Wilford Meldrum was quietly solemnized in the Alberta Temple at Cardston on Tuesday, May 8th. President Heber Matkin performed the ceremony. Mr. and Mrs. Meldrum will reside in Raymond where Mrs. Meldrum will continue operating her Beauty Parlor, the Vanity Beauty Shoppe. The well wishes of the community are extended to the happy couple.

In honor of the newlyweds, Mr. and Mrs. Wilford Meldrum, a party was held for them at the home of Pres. and Mrs. J. Golden Snow with many friends present expressing good wishes for their happiness.

After an attractive lunch was served by Mrs. Snow the happy crowd played the game of Bingo.

Mr. and Mrs. Meldrum were presented with a beautiful gift from their assembled friends.

Out of town guests included Mr. and Mrs. Charles Fawns of Foremost and Mrs. E. H. Price of Taber.

Mr. and Mrs. M. T. King entertained at a delightful spring party held in the Legion Hall Saturday evening May 5th. Forty eight guests enjoyed the most exquisite food served on tables centered with golden daffodils

After playing Rook and awarding prizes the evening came to a pleasant close.

Many Pay Last Respects To G. Nelson

— Funeral at Magrath

Funeral Services for the late Grover Nelson, son of Mr. and Mrs. D. N. Nelson of Magrath, who died in Toronto Hospital recently after a long illness, were held in Magrath, Wed. May 9th. A great many people from Raymond were in attendance to help fill the chapel to overflowing.

The beautiful words spoken by the brethern as well as the songs brought sweet hope and peace to the bereaved. President J. Golden Snow was the speaker from Raymond and Joe McLean sang " I'm A Pilgrim."

Left to mourn are his wife Laura Attwood Nelson and two small children, one boy and one girl, his parents and several brothers and sisters.

Interment was in the Magrath Cemetary.

The Raymond 1st Ward's group of Seventies held a delightful party on Saturday evening May 5th at the farm home of Mr. and Mrs. Ralph Meldrum with Mr. and Mrs. Rex Neilson assistant hosts.

After playing a variety of games, Mrs. Meldrum reviewed the biography of "J. Golden Kimball."

The evening was brought to a close with the serving of an attracive lunch by the hostesses. Others present included the D. L. Paxmans, Arlie Hudsons, Melby Lybberts, Ellys Piepgrass, Eddie Kiddles, Mose Fromms, Willard Paxmans, Earl Griggors, and a special guest Mrs. Louie B. Taylor.

Mrs. Steele Brewerton and Mrs. B. Anderson of Magrath were Stake visitors for the Relief Society, in Raymond on Thursday afternoon.

Red Cross Campaign Organized

— T. Geo. Wood Campaign Manager

The Red Cross Society of the Raymond and Ditrict Branch held a meeting Wednesday evening May 9th in the Town Hall to organize a committee for the annual campaign for funds The executive body of the Society as constituted at present was Dr. Orson T. Bingham as Pres., E. L. Hudson as first Vice, Dorothea Roberts as 2nd Vice and Mrs. Frank Hall and Mrs. Ike Kitchen as directors.

The Red Cross takes care of people who meet disaster in many forms and in all parts of the world, in large centers as well as in many small and isolated districts. The Red Cross is international and its great and benefecial work should not be under estimated. It is worthy of the support of every individual.

Mr. T. George Wood was appointed Campaign Manager and with William Sipp as Treas., Anne Turner Sec., and Delia Woolf as Publicity agent, the Campaign will be ably handled:

Mr. Wood, as chairman, led a discussion for plans on a ways and a means for carrying out the present drive for funds. Team Captains were appointed to take charge of groups in the district.

Mr. Charlie Matkin of Magrath gave an invigorating talk on work covered by the Red Cross. Quite a few children from towns in the surrounding district had received help in the past at the Red Cross Children's Hospital and at the Blood Donors Clinic in Calgary where the costs are $10. a day for each patient who is sent there.

The Red Cross Society is willing and very glad to give service and help but they must have the support and co-operation of the people. Let every one get behind this worthy project and help the Red Cross.

The Readers Progress Club were welcomed at the home of Anne Turner for their regular monthly meeting on Wednesday afternoon May 9th.

Pres. Donna Meldrum took charge and after the business of the day was taken care of time was given to Velva Cooper who very capably gave an interesting review of the book "Minding Our Own Business" by Charlotte Paul. This is the story of Charlotte Paul, her husband and two young sons who gave up their comfortable life in Chicago to buy a little weekly newspaper in a small town in Washington. The troubles, joys and achievments they experienced makes an interesting story.

A pleasant different lunch was serserved by Anne and her sister, Norma Meldrum.

The regular meeting of the Warner County A. T. A. was held in Raymond on Wednesday April 25th. Mr. Bill Nalder assisted by his secretary, Mr. Rex Neilson ably conducted the meeting. Mr. Ross McCormic of Wrenthem gave a most interesting and comprehensive report of the A. G. M. held in Calgary recently.

Mr. McCormic had typed a copy report. This has been made available to the teachers within the local.

Mrs. J. M. Lybbert was a recent visitor in Edmonton.

Wallace Holland Mourned

— Killed in Auto Crash in U.S.

In addition to members of the family of Sandra Kirkham Holland, a great number of Raymond friends helped to fill the Cardston Chapel to capacity for the Funeral Services on Monday, May 7th, of the late Wallace Holland who was so tragically killed in a recent highway accident just outside the city of Chicago.

President J. Orvin Hicken, one of the three speakers, gave an inspirational discourse with comforting words of advice and hope to the mourners.

Quick Canadian Quiz

1. Name the only fresh-water fish which goes to sea to spawn.
2. What is the origin of the name of the city of Moose Jaw, Saskatchewan?
3. How many immagrants were admitted to Canada in 1955?
4. Excluding defense costs, which department of the federal government is the biggest spender?
5. At what point does the Alberta - Ontario crude oil pipe line cross the Canada U. S. border?

ANSWERS: 5. The pipe line enters the U. S. at Gretna, Man., south-west of Winnipeg, travels south of Lake Superior and re-enters Canada at Sarnia Ont. 3. 110,000 a drop of 43% from the post - war record year, 1951. 1. The eel; eels from eastern Canada spawn near the West Indies. 4. Finance department, now nearly a billion dollars a year, mostly for interest on public dept. 2. It comes from an Indian word that means, "The place where the white man mended his cart with the jaw bone of the moose."

Some 150 milk churns have been supplied for use aboard the new Canadian Pacific flagship Empress of Britian.

It is only necessary to grow older to become more indulgent. I see no fault committed that I have not committed myself. —Goethe

Buick's new Dynaflow transmission for 1956 improves both performance and gasoline economy. A second stator provides greater torque multiplication, increases performance in the low speed ranges and improves gas mileage about two tenths of a mile per gallon at 30 mph.

The sun, the moon and the stars would have disappeared long ago, had they happened to be within reach of predatory human hands. —(H. Ellis).

Alberta's Natural Gas Industry : DISTRIBUTION

GAS Goes 'round the town!

The network of Natural Gas pipelines criss-crossing a city or town a few feet below ground is called the "Distribution System". These lines provide gas with "local transportation" from the point at which the transmission system ends. Like the high-pressure transmission lines which bring gas from the field, these medium and low-pressure distribution mains are welded steel pipe, carefully engineered and treated against corrosion. Spreading out to every part of the community, they are your direct link with natural gas service!

With GAS you get service --we plan it that way!

Canadian Western NATURAL GAS SERVICE

One amateur gardener figures with all the expensive fertilizers, soil conditioners and grass seed going into a lawn the soil is worth almost as much as gold dust.

Canada Could Lose Out

In anticipation of the St. Lawrence Seaway, the U. S. Government recently announced that substantial subsidies will be available for American overseas shipping from Great Lakes ports.

With that definite assurance, says The Financial Post, U. S. representatives on the international body now negotiating tolls for the Seaway will have a very definite advantage and every encouragement to fix tolls high.

To heavily subsidized American ships, toll will be little more than a mere bookkeeping entries — money handed out by Uncle Sam to be paid back to Uncle Sam.

But to unsubsidized shipping and particularly Canadian shipping which must meet operating costs comparable to American, high tolls will be a prohibitive barrier and a means of turning the Great Lakes into a purely American preserve.

While competitors are going ahead and getting ready for the tremendous changes ahead, Canadian interests can only mark time, wondering and waiting while Ottawa makes up its mind one way or the other on a national shipping policy.

Over 3 000,000 horsepower is being produced in Canada by General Motor Diesel engines.

New Advances Against Unconquered Infections

In less than a half century, science has produced new drugs that can be used to prevent, treat, or cure most of the killing and crippling infectious diseases of mankind. Pneumonia, syphilis, and typhoid—to name but three that have taken millions of lives—can now be controlled.

The infectious diseases produced by the viral and fungal organisms, however, remain a challenge despite the increasing rate at which new and more effective drugs are being developed by the pharmaceutical industry. But even these hitherto invincible germs now appear to be losing ground in the face of science's intensive search for new therapeutic weapons.

The promising aspect of this search was disclosed at the Third Annual Antibiotic Symposium, recently held in Washington, D.C. The symposium, sponsored by the government and attended by scientists from many foreign countries as well as the United States, heard descriptions of more than a dozen new antibiotics scheduled to be tested in hospitals against a variety of human diseases. Some of these diseases are presently regarded as incurable.

Several of the antibiotics were reported to have shown promise against infections caused by fungi, which are plantlike organisms that afflict both the skin and internal organs. One antibiotic, derived from the Streptomyces family of molds, has produced good results against internal as well as external fungal diseases, the symposium was told. The drug was tested in mice infected with monilia, yeast-like fungi that cause many different human diseases ranging from mild skin conditions to fatal infections of the heart, lungs, and other organs. The results warrant considering the drug a potentially valuable agent in human therapy, the experimenters reported.

Preliminary results obtained in test-tube and animal experiments involving other new antibiotics also indicated that notable advances are being made against viruses, tiny germs responsible for such baffling diseases as polio, the common cold, and influenza.

But while the announcements of new antibiotics to be used against fungal and viral diseases received considerable attention at the Washington meeting, scientists gave prime consideration to drugs that are already being utilized against human infections. A large number of papers read at the symposium highlighted achievements currently being made against scores of diseases with the potent new antibiotic, tetracycline. This drug, also known as Polycycline and Steclin, has proven particularly effective against wintertime diseases such as pneumonia, bronchitis.

Where We Excel

An Arizona builder is providing private swiming pools with houses priced to sell for $10,000.

Thus, comments The Financial Post another symbol of wealth bites the dust. The rare becomes the common as have so many things in the North America in the past quarter century. A private swiming pool is no longer the hallmark of a vast fortune. It's true, there's a difference between a small pool in the back yard and a glass enclosed, heated luxury affair. But not as much difference as there is between a swiming pool and a bath tub.

Similarly, while there's a difference between driving a Cadillac and driving a second-hand Ford—there's not as much difference as there is between driving a Ford and riding a bicycle.

This spread of luxury into the mass market is one of the most important economic and political facts of life in our generation in North America.

This is what keeps our economy buzzing. The mass market is the real secret weapon of capitalism. It is the basic difference between the North American economy and that of all other lands.

All Frigidaire electric ranges and automatic washers and dryers are finished in Lifetime Porcelain both inside and out.

10 DAYS between PROFIT and LOSS

Ten days ago the grain stood straight and promising in the fields. Then the temperature dropped . . . and the crop bowed to its greatest enemy—frost.

Ten days—your earlier harvest bonus from fertilizer—would have made the difference between profit and loss from frost-killed grain. Elephant Brand high analysis fertilizers, rich in nitrogen and phosphorous plant food and "tailor-made" for the Canadian Prairies, brings grain crops to maturity faster . . . a harvest up to *ten days earlier.*

A party of hunters finally talked their faithful cook, old Mose, into going with them while they tracked down a huge grizzly. "All right I'll go," he conceded reluctantly, "but if you gets wrestling with that bear, and you look's round and don't see nobody —that's me."

It'll soon be time for mankind to put on its annual entertainment for the animal kingdom. Crowds will be flocking to the zoos.

Around Our House

By Bill and Eileen Lovett

For a sick a bed, particularly if it's one of the children, we've found that a clutter bag made from an old plastic shoe bag is wonderfully handy. Just tuck the top tiers of the shoe bag between the mattress and springs, leaving the bottom row of pockets free to hold crayons, comics, small toys and tissues.

Speaking of children brings up the subject of bed time bogey fears. A night light is one solution — but it developes a habit that is hard to break. A small Eveready flashlight tucked under the pillow is a better idea. Just knowing a light is handy is often comfort enough.

Here's a tip on how to remove those ugly stains sometimes left by ball point pens. Try saturating the stain with rubbing alcohol. After soaking, rub the area until the ink is softened then wash in the usual way.

How many times have you heard one of the family say "Oh, no - not corned beef hash again?" Next time, mix in a chopped ,parboiled green pepper, a little marjoram and a pinch of thyme. Shape into cakes for broiling or frying. Then serve with tomato sauce.

What next? Seems that the radio set manufacturers are predicting portable radios the size of a cigarette package, yet with all the performance features of present sets which are 50 times that size. They're even busy designing a self contained portable radio that will fit inside the dash compartment of your car. Use it as a car radio while you're driving, then just lift it out and carry it with you wherever you go.

Want some helpful hints as to what colors to choose in painting one of the rooms in yur house? If ceilings seem high, use dark colors. Rooms that are long and narrow look much better if end walls are painted in strong colors. If a room seems too small paint walls and woodwork in light colors. Dark colors make a large room seem smaller and more inviting.

Large pictures in a room almost always look attracive, but can be more interesting if combined with something else on the mantel such as a candelbra. And don't hang the picture too high.

Evelyn: "He's so romantic. Every time he speaks to me he addresses me as 'Fair Lady'.

June; "That's force of habit. He used to be a bus conductor."

Contributing greatly to driver and front seat passenger comfort, the 1956 Cadillac offers a new six-way power seat adjuster which provides for adjusting the angle of the seat back in addition to the horizontal and vertical movement.

NOTICE

THE ALBERTA LIQUOR CONTROL ACT

The Special Committee appointed by the Legislative Assembly at the recent Session for the purpose of reviewing the provisions of the Alberta Liquor Control Act in order to recommend ammendments thereto, will receive written briefs from interested persons, group, and organizations prior to June 1st, 1956.

Representations in support of the briefs submitted by organizations or groups only will be heard commencing June 18th.

Organizations and groups that submit briefs will be advised when to appear before the Committee.

Twelve copies of the briefs should be sent to:
The Clerk of the Legislative Assembly,
Legislative Building, Edmonton.

R. Crevolin,
Secretary of Committee.

You'll hit the jackpot with a Plymouth

Manufactured in Canada by Chrysler Corporation of Canada, Limited

Come in, learn about Plymouth's JACKPOT OF VALUES!

There's a Surprise in store for you!
For buys that are mighty hard to beat, see your Plymouth dealer. He's offering better deals, bigger driving benefits, bonus surprises during Plymouth's Jackpot of Values.

Come see—come save—come get the features other cars still lack. You can hit the jackpot . . . *today!*

Biggest car of the low-price three, Plymouth is up to 7.3 inches longer outside, roomiest inside, and has the biggest trunk by far!

Only all-new styling in its class makes Plymouth the car to be copied! Flight-Styled from angle-hooded headlights to dramatic upswept rear fenders!

Exclusive push-button driving sets Plymouth apart. With PowerFlite automatic transmission, you push a button, step on the gas, and GO!

Most powerful car in its field, Plymouth lets you choose up to 240 h.p. in the Plymouth Fury—the car that recently broke all stock car *acceleration* records and the *speed* records for its class!

Lowest priced car with push-button drive, Plymouth is easy to buy, economical to own. Look-ahead styling and built-in quality mean higher resale value!

More safety features for accident *prevention* and *protection*. Your dealer can show you a convincing safety comparison of Plymouth and its competitors.

You needn't wait for something new... Plymouth has it now!

IMMEDIATE DELIVERY PLYMOUTH 6 OR V-8

REMEMBER, MAY IS SAFETY MONTH, DRIVE SAFELY!

Experiments in which supersonic sound will be used to determine the properties of wood are being planned by the Forest Products Laboratories of Canada.

Forest fire protection and forest management in the 430 square mile Canadian Army camp at Gagetown, N. B., is the responsibility of the Forestry Branch, Department of Northern Affairs and National Resources.

A joint aerial spraying program by the federal and New Brunswick governments and the forest industry is waging war on the spruce budworm, an insect threatening extensive areas of valuable pulpwood forest in the northern part of New Brunswick.

More than 48,000,000 trees have been planted on unoccupied crown lands in six Canadian provinces since 1951 under reforestation agreements.

The inventory of Canadian forests being carried out under a five-year agreement between the federal government and seven provincial governments is approximately three-quarters finished.

A radioactive isotope is being used to trace the movement of nutrients within trees at the Petawawa, Ont., forest experimental station of the Forestry Branch, Department of Northern Affairs and National Resources

If the head of the house says "In the long run we can do it," he actually means the object can be purchased with the aid of installment.

Influenza has been known since about 400 B. C.

A new high tension spark plug cable utilizing plastic insulation which posses the ability to withstand higher temperatures than any plastic insulated cable previously available has been developed by Packard Electric Division of GM Corporation. The new cable withstands temperatures up to 220° F., 60% higher than previous plastic insulated cable, and is recommended for use in the engine compartment of trucks, buses and other heavy duty equipment where high operating temperatures might affect the serviceability of standard spark plug cable.

New headlamps on the 1956 Pontiacs will give more night time visibility with less glare against the oncoming traffic. The passing beam provides up to 80 feet more seeing distance. Reduced upward reflected light in the new lamps improves visibility especially in dust, rain or snow.

"What you mumblin' about Paw?" the hillbilly's missus asked.

"Why tarnation," the old man exploded. "It says here them dad blamed scientists have fooled around till they discovered something that'll cure a snake bite besides likker."

Mr. and Mrs. E L Hudson had as house guests the past week, their son and his family, Mr. and Mrs. Gordon Hudson of Edmonton where Mr. Hudson has completed his course in Commerce at the University of Alberta.

COOLER AHEAD?

The popular science writer has been telling us over and over again: "The world's climate is slowly getting warmer. The polar ice is melting."

Now it seems, he may be wrong, says The Financial Post.

Meteorology Professor Hurd Willett (Massachusetts Institute of Technology) makes these points:

Over the next half-century the weather is going to become moister and colder, with lots of snow and ice.

Tropical hurricanes, like Hazel, which slashed Southern Ontario and Edna which ripped through part of Nova Scotia, are going to make fewer excursion into northern climes.

There'll be no drought, like that of the 1930s, on the western plains.

Rocky Mountain Glaciers, which receded during the first half of the century, are coming back.

Willett bases much of his theory on the cycle of sun spots.

The layman can be pardoned for being confused by all the conflicting opinion on weather trends.

But, at least, Torontonians would be well advised to shun long-range plans for banana plantations in the suburbs; and Montrealers better wait for a while before buying palm trees to shade the back lawn.

Tomato - Egg Bake

1 28 ounce can of tomatoes
¼ cup minced onion
¼ cup minced green pepper
¾ cup diced celery
1 bay leaf
1 teaspoon salt.
1 cup soft bread crumbs
⅛ teaspoon of pepper
¾ cup cooked green beans
1½ cups grated Cheddar cheese.

Combine tomatoes onion, green pepper, celery, bay leaf, salt and pepper and simmer until celery is tender, about 20 minutes. Remove bay leaf. Add bread crumbs and green beans. Arrange tomato mixtue and cheese in alternate layers in 6 greased individual casseroles ending with cheese Make a depression in center of mixture and break an egg in it. Sprinkle eggs with salt and pepper and bake in a moderate oven, 350° F., until eggs are set, about 20 minutes. Yield 6.

The major source of employment and income in Canada is the manufacturing industry.

Quick Canadian Facts

1. What is the minimum age of a Canadian senator?

2. Children are eligible for family allowance up to what age?

3. To pay for its spending on welfare and social security only how much must federal government collect daily in taxes from Canadians?

4. In Canada which is greater, the area of occupied farmland or the area of unoccupied land suitable for farming?

5. Which is greater, the number of Canadians employed in the manufacturing and service industries, or the number employed in the primary industries?

ANSWERS: 5. Manufacturing and service industries employ 79.6% of labor force. 3. Three and a half million dollars daily. 1. For appointment to Senate a Canadian must be at least 30. 4. Unoccupied farmland still greater than land under cultivation. 2. Up to age 16, unless they fail to attend school or are married.

THERE'S MONEY FOR FERTILIZER at the B of M

The purchase of fertilizer is sometimes a headache. Because the need for it usually comes at a time when there are a lot of expenses and little income.

Avoid that headache this year. See your B of M manager about a loan. Repayment terms are easy—suited to a farmer's requirements. Drop in at your nearest B of M branch *today*, or as soon as convenient.

Most Rev. Maurice Roy, archbishop of Quebec, has been named Primate of Canada by Pope Pius XII. The announcement was made by Most Rev. Giovanni Panico, apostolic delegate to Canada. Archbishop Roy now ranks as the senior Roman Catholic archbishop in Canada.

STAKE RELIEF SOCIETY

(continued from front page)

The sincerety of the rendition of the Beatitudes may have caught the attention of some heavy ladened soul. Or again some may have seen the place where Jesus walked as the song "I Walked Today Where Jesus Walked" was sweetly sung by members of the Raymond Music Club.

Perhaps a visiting teacher was given new courage and insight into her work as she listened to Myrtle Passey and Ruth Austin as they told the story of the Young Mother and her need. Surely the work of the visiting teacher is furthering the work of our Lord.

The relization of how truly blessed we are, possibly was brought home to some as the wonders of this free land Canada, were extolled. This portion of the program, the Social Science, was excellently handled by Barbara Davies and Barbara Anderson under the capable direction of Lareen Brewerton.

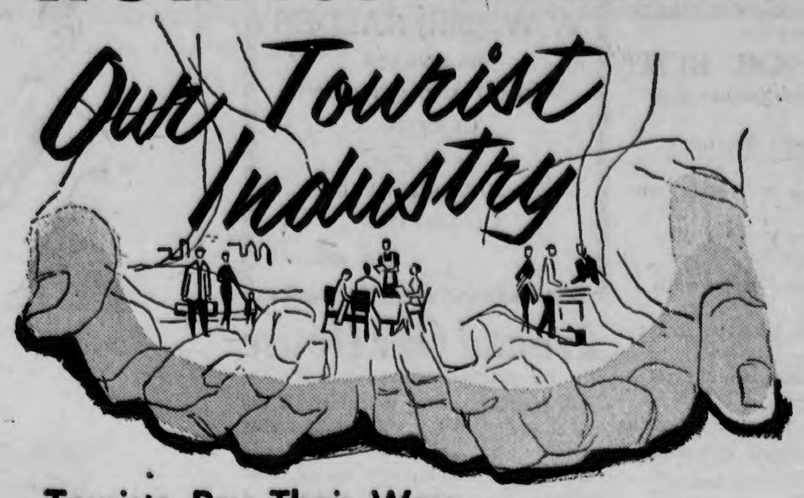
And yet to many others perhaps the Literature Review, a culmination of seven years study was the highlight of the afternoon. How wonderful it was to travel back quickly to the old English writers of the period begining about 449 A. D. and then to progress slowly and surely down through the ages with our great writers. The selections chosen were beautifully read by the ladies each costumed in the dress of the particular, she represented. What feelings of exhaltation and pride must have been borne in the heart of each listener as she relized that these excerpts were only a very small portion of her cultural heritage. A heritage in which one can find great happiness and contentment if she only listens and understands. Sister Tanner and her helpers are to be comended for a splendid piece of work, a job well done.

All present agreed with President Wood and President Snow when they praised the participants for this inspirational afternoon.

At the close of the session the ladies went to the recreation hall and were delighted with the song and dance of the lovely Chefs in blue. The smorgasboard that followed in beautiful arrangement and great variety, was donated by the different wards of the Stake, was a fitting close to a spiritual and cultural feast of the Relief Society work.

IT'S IN YOUR HANDS . . .

Our Tourist Industry



Tourists Pay Their Way

The average visitor spends over ten dollars per day in a community, often buying things the average Albertan doesn't need. Tourists buy what they want with money earned elsewhere, thus adding to our capital wealth.

Everyone Benefits

Food producers, farmers and processors . . . manufacturers . . . retailers . . . hotels . . . motels . . . service stations . . . transportation companies . . . dispensers of goods and services—all benefit from the tourist industry.

Courtesy Pays Big Dividends

Be helpful and friendly! Encourage visitors to stay longer. Be sure roadside and all other services are adequate, that accommodations and meals are always excellent.

No matter how much Ottawa offers the provinces in tax settlements, the provinces will always ask for more, argues Bruce Hutchison, in the Financial Post.

All this proceeds from a basic illusion of Canadian folklore— the illusion that if a province can shovel its burdens upon the national treasury the taxpayers of that province will somehow escape them.

You would think to hear the local who support the national treasury politicians talk, that the taxpayers lived in some never never land outside the provinces, perhaps in the Arctic tundra. You would think that the Federal Government never taxed the inhabitants of the provinces but only some foreign race, or some superhuman species with a bottomless purse and an unnatural appetite for taxes. The myth of the fairy godmother in Ottawa dies hard.

The Engine Plant at The McKinnon Industries, Ltd. at Grantham Township, Ont., the newest McKinnon Division use automation extensively in its operation. Here, once an engine block casting is set on a conveyor it is untouched by human hands until it completes its journey through 65 working stations by automation. There is no point in this long process where the casting has to be moved from one machine to another or where an employee has to lift it.

Mr. and Mrs. Will Wilde and other members of the family attended the Funeral Services in Lethbridge on Saturday, May 5th, of the late Moral Elder.

Over one hundred separate safety features have been engineered into the new 1956 Pontiac.

Each guest at the annual meeting dinner of the Canadian General Council of the Boy Scouts Association in Ottawa on April, 27th, will receive a quarter pound gift package of annual and perennial wildflower seeds as a symbol of Canadian Scouting's national conservation good turn for 1956. The seeds are for planting on Scout campsites or other Scouting areas.

Guest speaker at the dinner will be the Hon. Jean Lesage, Minister of Northern Affairs and National Resources. At the annual meeting, preceding the dinner, conservation displays by provincial Scout Councils and by selected Ottawa Scout groups will be featured.

Tomorrow's Cars

In another ten years, perhaps sooner you'll flick the ignition key in your new gas turbine automobile and says The Financial Post, this what will happen; An electric motor will spin the gas generator section of the turbine up to idling speed at 10,000 rpm. You won't know when it fires except for a faint whine, like a vacuum cleaner in a far off part of the house. A dashboard light will tell you when you're ready to go.

There are big problems to be solved before the age of the gas turbine auto is here. Experimental models already on the road are still quite costly.

Nothing fundamental has happened to motor cars since the days of the Model T. They're bigger, brighter, smoother and faster and all the rest. But they are still powered in essentially the same way.

Right now the motor industry is readying itself for what may be the biggest forward leap in the industry's history. It won't be this year or in five years. But it may well be within ten. In this competitive industry they are forcing the pace of progress.

Of the 3,389,350 Canadians who paid personal income tax in 1953, only 9,260 had incomes of $25,000 or over.

The expression "he was born with a silver spoon in his mouth" is said by the Book of Knowledge to date from the Middle Ages. A newborn baby had a silver spoon put into his mouth to drive out diseases, but only the wealthy could afford to indulge in this superstition.

THE RAYMOND MERCANTILE

Young children should not have unnatural fears. They may fear some things which they know will hurt them, but fear of dark or imaginary horrors should'nt be threatened by the "bogeyman" or be punished by isolation in a dark room. If a youngster shows signs of being afraid of nonharmful or imaginary objects, he can often be helped by discussion of the [illegible]les with his parents who should help him analyse the problem. He should never be ridiculed about his terrors. He should be encouraged to talk these matters over with his family seniors.

A practicle knowledge of swiming is important to everyone. Not only is it a healthy form of excercise but it can be a lifesaver in case of emergency in the water. Most larger communities have facilities for swiming lessons and it is a good idea to take advantage of these, especially if they are availab,el during the winter months. Youngsters should be taught to swim as soon as they are able to understand the instruction.

Of every gallon of blood pumped by the heart, more than a quart passes through the kidneys.

Spring Sandwich Fillings

Hard cooked eggs pair off with other foods for spring sandwich fillings. For one, combine 1 chopped hard cooked egg, ½ cup flaked tuna or salmon, ⅓ cup grated process chesse, 1 tablespoon each, chopped green ,pepper, chopped onion, and chopped stuff olives, and 3 tablespoons mayonnaise or salad dressing. Makes 6 sandwiches.

Forage acreage can be increased on most farms without using a large amount of productive land, advises Robert L. Pharis, Alberta's Supervisor of Crop Improvement.

The removal of fences and working down of roadsides ditches can add up to four acres of land per mile. This extra acreage can be devoted to a high yielding grass and legume hay mixture, Mr. Pharis suggests.

The need for larger hay reserves is recognized by livestock producers particularly after the past winter. In addition, ditches and fence lines which often harbour noxious weeds will be producing a useful crop and closely clipped hay land allows the wind a clean sweep and roads remain open throughout the winter.

A neat, accessible farm is worth more and the extra feed provided by such a program gives greater security to the livestock enterprise.
